

## Health & Safety at Work Act 1974

This is the health and safety policy statement of Complete Treeworks

Complete Treeworks recognises the importance of health and safety at work to protect workers, sub-contractors, the general public and property.

The steps we take help keep risk to an absolute minimum:

- Risk assessments are recorded on site to identify potential hazards. This makes all workers aware of potential risk and helps set in place a 'safe working system'.
- PPE Personal Protective Equipment is worn on site
- All climbing and rigging equipment inspected (LOLER)
- Complete Treeworks is fully insured with public liability insurance to £5million
- CTW can provide a Method Statement on request
- All staff are trained, qualified and hold relevant NPTC certificates
- Work carried out to British standard 3998.
